1. Logging In

Access via the CLPA official site top page.

<<URL>>

<https://www.cc-link.org/en/index.html>

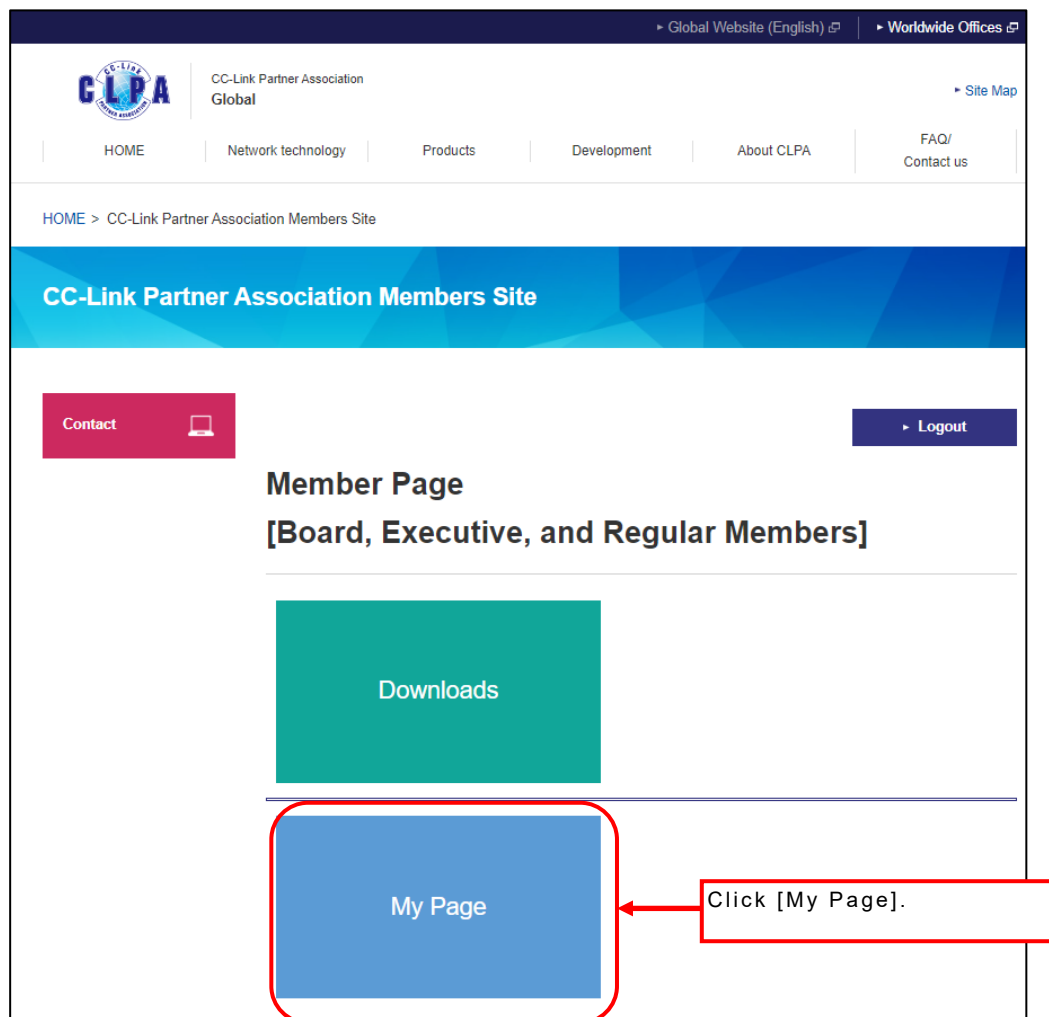

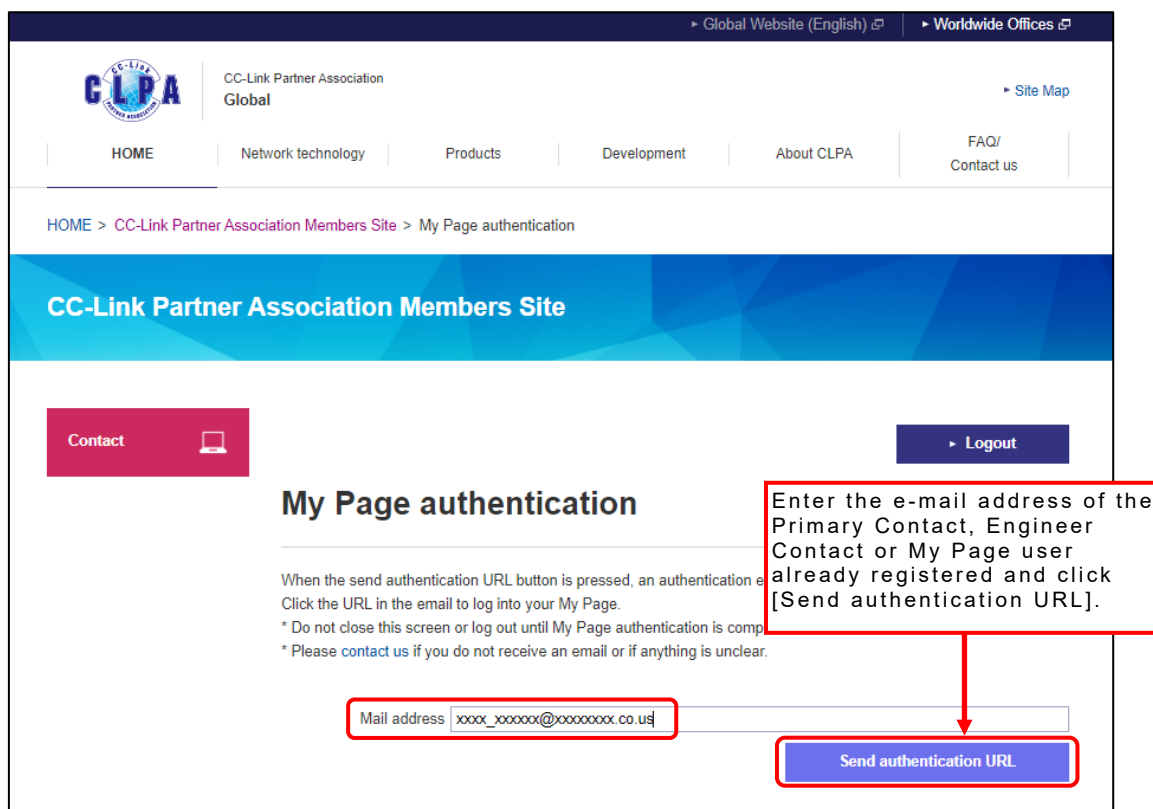

2. My Page Authentication

The exclusive member pages will appear after logging in.

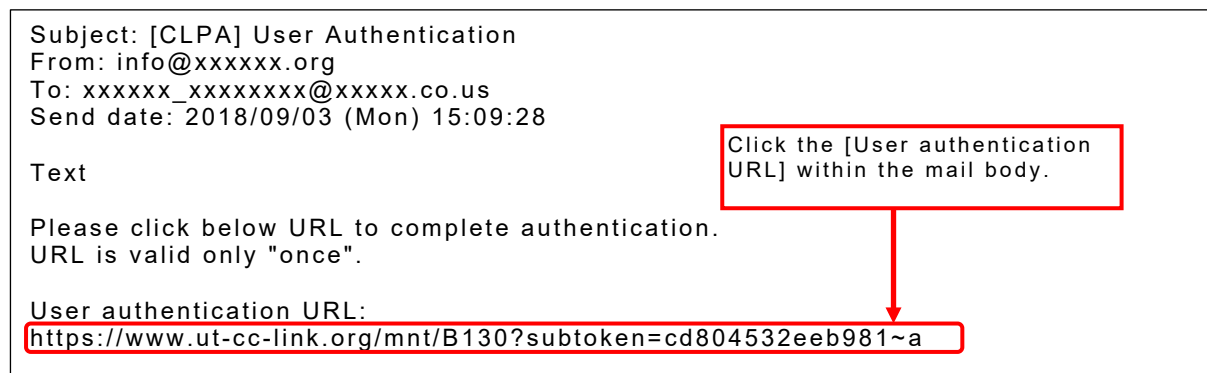

Only [Downloads] on this screen can be used.

Separate authentication is required in order to register/change product information or perform master maintenance.

An authentication e-mail will be sent to the entered e-mail address.

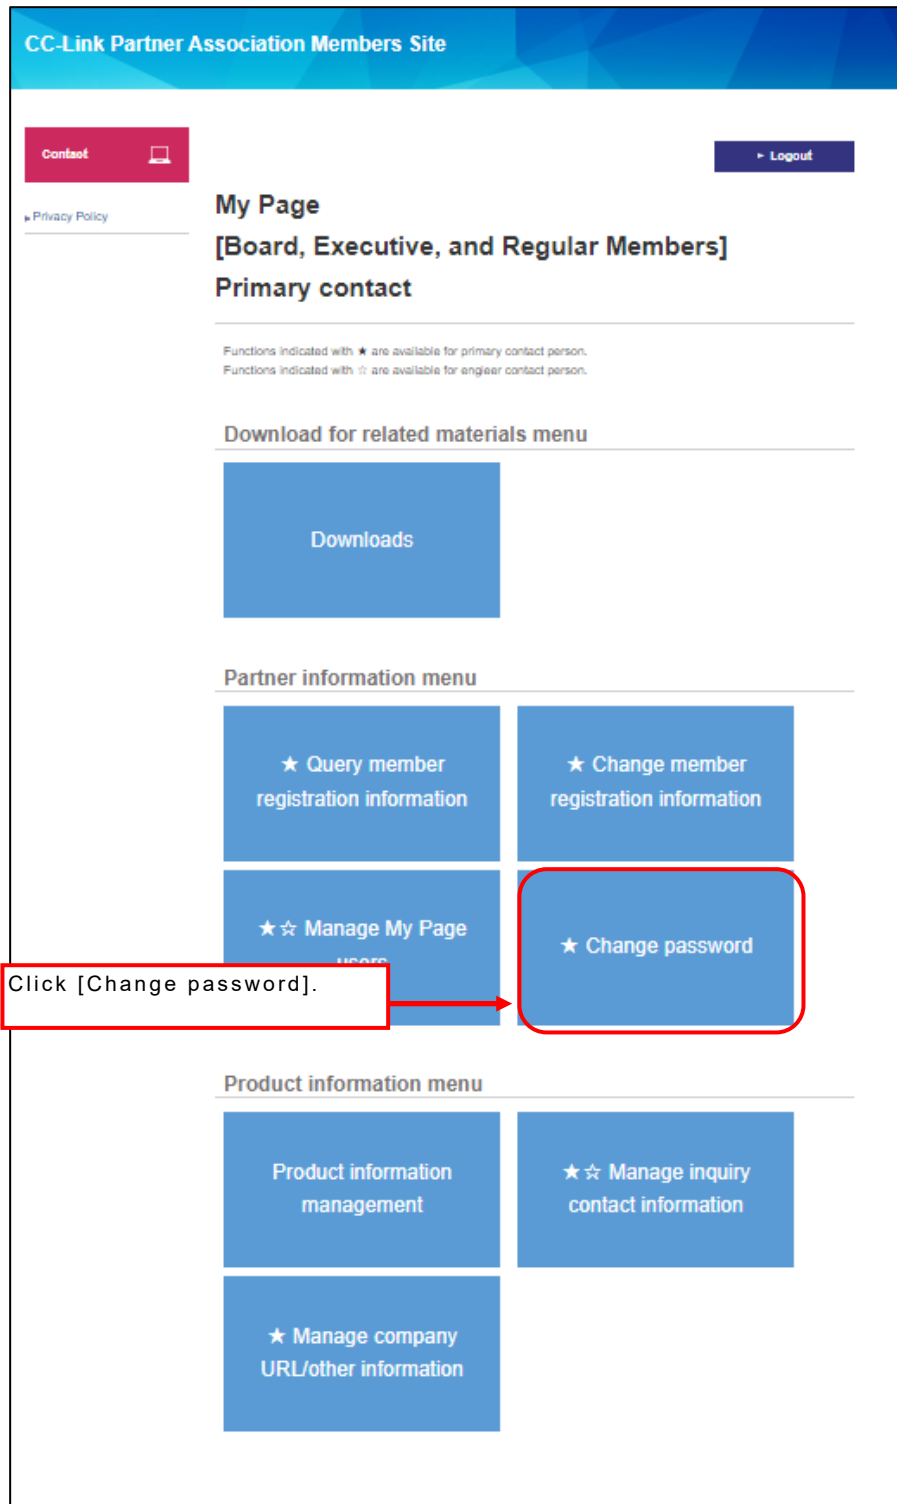

Authentication is completed and the relevant [My Page] screen appears.

3. Changing Passwords

Member information can be changed using the My Page screen.

Screen example (board member, executive member, regular member)

Only the Primary Contact can change passwords.
Only the Primary Contact can authenticate initial passwords (after initial login or after password reset). Be sure to change the initial password before beginning use.

CC-Link Partner Association Members Site

My Page

Contact

Current password

New password

New password (re-input)

Update | Return to My Page

Enter [Current password] and [New password] and click [Update].

Use a combination of 4 letter types (upper case, lower case, numbers, and symbols) for the new password, totaling 8 to 12 characters.
Note that the password cannot be set to the [User ID] or [Current password].

Passwords are valid for 180 days.
An email reminder will be sent when the validity period is almost over.

Once the validity period has passed, the system cannot be used until the password has been changed.
The Primary Contact should periodically change the password.
Note that the Primary Contact will be directed to the password change screen upon login.

The following items are called the initial password.

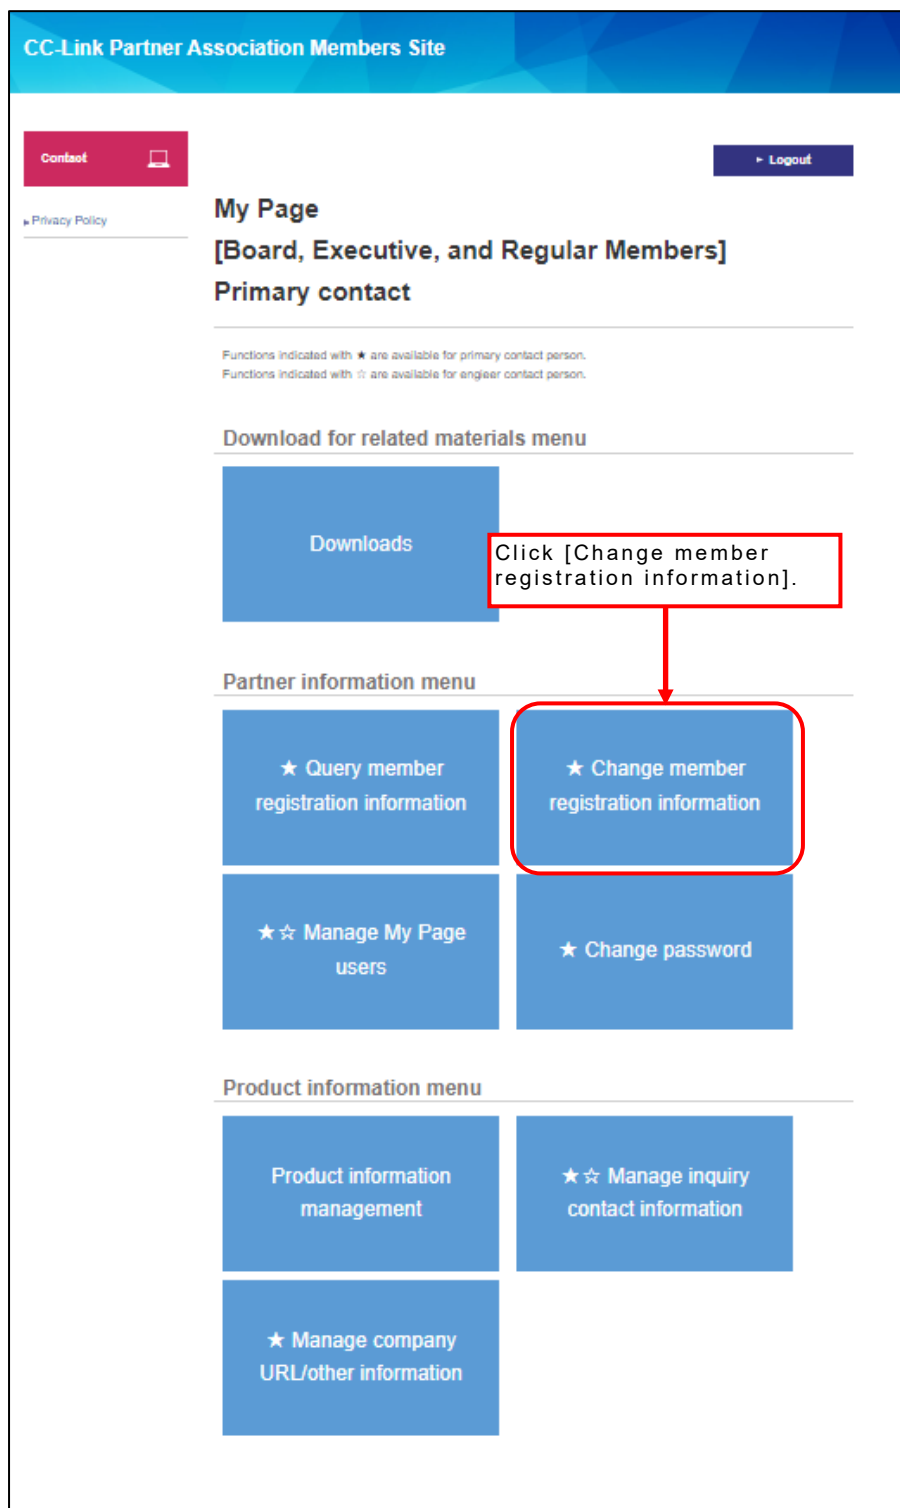

- The password sent by CC-Link via e-mail notification after signing up
- The password sent via e-mail notification after a forgotten-password request to CC-Link

Initial passwords are valid for 7 days.
The initial password cannot be used if the validity period is expired. The Primary Contact should always change the password within the validity period.

4. Change Applications

Member information can be changed using the My Page screen.

Screen example (Board member, Executive member, Regular member)

Only the Primary Contact can change member registration information.

Register Add entry field

Registering without checking the [Internal approval] field enables the internal approval process to be bypassed.

7. Registering Contacts for Inquiries

This is used to register selections, as contacts are specified via selection when registering products.

The screenshot displays the 'My Page' interface for a primary contact. The page is titled 'My Page [Board, Executive, and Regular Members] Primary contact'. It features several functional menus:

- Download for related materials menu:** Contains a 'Downloads' button.
- Partner information menu:** Contains four options: '★ Query member registration information', '★ Change member registration information', '★ ☆ Manage My Page users', and '★ Change password'.
- Product information menu:** Contains three options: 'Product information management', '★ ☆ Manage inquiry contact information', and '★ Manage company URL/other information'.

A red callout box with the text 'Click [Manage inquiry contact information].' has an arrow pointing to the '★ ☆ Manage inquiry contact information' button in the Product information menu.

[Manage inquiry contact information] can be used by the Primary Contact, Engineer Contact, and My Page users that have been authorized to use the [Manage inquiry contact information] menu in [Manage My Page users].

The screenshot displays the 'Manage inquiry contact information' page. At the top, there is a blue header with the text 'CC-Link Partner Association Members Site'. Below the header, there is a navigation bar with 'My Page' on the left and 'Return to My Page' and 'Logout' buttons on the right. A red 'Contact' button with a laptop icon is visible on the left side. The main heading is 'Manage inquiry contact information'. Below the heading, a note states: 'This screen is used to register/change selections, as contacts are specified when registering products.' The main content area contains a table with a 'Code' column and a 'Contact' column. The 'Contact' column has a 'Delete' button and a 'Register' button. Below the table, there is a form with the following fields: 'Pull-down display name' (with options: Japanese, English*, Chinese, Korean, Taiwanese), 'Select language*' (with a dropdown menu showing 'English'), 'Company name' (with the text 'Abc Co., Ltd'), 'Address' (with the text '111 Street, City, State, Zip, USA'), 'Telephone' (with the text '123'), 'Mail' (with the text 'xxx_yxxxxxx@xxxxxxxxxx.co.us'), and 'Other (enter as needed)' (with the text 'Please input information other than above. (e.g. branch office)'). An 'Add entry field' button is located at the bottom right of the form.

Enter the required information, such as pulldown display name, language selection, etc.

The pulldown display name (English) and language selection are mandatory items.

The language selection specifies the display language for the inquiry contact.
If "日本語" is selected, the following message will appear.

会社名: 株式会社 ○○○ 営業部
住所: ○○県○○市○○町 1-2-3
電話番号: 999-999-9999
E-mail: xxx_xxxxx@xxxxx.co.jp

If "English" is selected, the following message will appear.

Name: ○○○ Company, Sales Division
Address: 1-2-3 ○○-cho, ○○ City, ○○
Phone: 999-999-9999
E-mail: xxx_xxxxx@xxxxx.co.jp

8. Registering Company URLs/Other Information

This is used to register selections, as the company URL and contact mail address are specified via selection when registering products.

The screenshot displays the 'My Page' interface for a user. At the top, there is a blue header with the text 'CC-Link Partner Association Members Site'. Below the header, there is a navigation bar with a 'Contact' button on the left and a 'Logout' button on the right. The main content area is titled 'My Page [Board, Executive, and Regular Members] Primary contact'. Below this title, there is a section for 'Download for related materials menu' with a 'Downloads' button. The next section is 'Partner information menu', which contains four buttons: '★ Query member registration information', '★ Change member registration information', '★ ☆ Manage My Page users', and '★ Change password'. The final section is 'Product information menu', which contains two buttons: 'Product information management' and '★ ☆ Manage inquiry contact information'. A red box highlights the button '★ Manage company URL/other information' in the 'Product information menu' section. An arrow points from a callout box to this button, with the text 'Click [Manage company URL/other information].'

Only the Primary Contact can use the company URL/other information management system.

Details of the company URL will be hidden. Clicking [+] will display them again.

E-mails can be handled in the same way as company URLs.

9. Searching for Test Request Information

Test request information can be searched.

The screenshot displays the 'My Page' interface for a member. At the top, there is a blue header with the text 'CC-Link Partner Association Members Site'. Below the header, there are navigation links for 'Contact' and 'Logout'. The main content area is titled 'My Page [Board, Executive, and Regular Members]' and includes a 'Primary contact' section with a note about function availability. The page is organized into several menu sections: 'Download for related materials menu' with a 'Downloads' button; 'Partner information menu' with four buttons: '★ Query member registration information', '★ Change member registration information', '★ ☆ Manage My Page users', and '★ Change password'; 'Test request information menu' with a button 'Test information management' highlighted by a red box and a callout box pointing to it with the text 'Click [Test information management].'; and 'Product information menu' with three buttons: 'Product information management', '★ ☆ Manage inquiry contact information', and '★ Manage company URL/other information'. A 'Page Top' button is located at the bottom right of the page.

Registered [Test request list] will appear.

11. Editing Test Request Information

Select test request information from the [Test request list] screen.

The screenshot shows the 'CLPA Test DBMS' interface. At the top, there is a blue header with the CLPA logo and the text 'CLPA Test DBMS'. Below the header, there is a navigation bar with 'Test request list', 'English', and 'Operation manual'. There are 'Logout' and 'Close' buttons. The main area contains a search form with the following fields: Partner company name (ABC), Network / Function (- All -), Category (- All -), Registration number (Keyword match search), Product name (Keyword match search), Model name (Keyword match search), Status (Editing, Requested, CLPA accepted, Testing, Certified, Completed, Cancel), and Test request accepted date from partner. There are 'Clear' and 'Search' buttons. Below the search form, there are sorting options: 'Sorting (ascending order)' and 'Sorting (descending order)'. A table shows the search results with columns: Network / Function, Registration number, Product name, Model name, Status, Test request accepted date from partner, and Update date. The first row has 'CC-Link', an empty registration number, a blue link 'AAA', 'AAA', 'Editing', an empty date, and '2023/02/09'. A red box highlights the 'AAA' link, and a red arrow points to it from a text box that says 'Click the [Product name] link for the target product.'

Network / Function	Registration number	Product name	Model name	Status	Test request accepted date from partner	Update date

12. Deleting Test Request Information

Test request information can only be deleted when the status is [Editing].

Select the target test request information to be deleted from the [Test request list] screen.

The screenshot shows the 'CLPA Test DBMS' interface. At the top, there is a header with the CLPA logo and navigation links for 'Logout' and 'Close'. Below the header, there is a 'Test request list' section with a search bar and various filters. The filters include 'Partner company name' (ABC), 'Network / Function', 'Category', 'Registration number', 'Product name', and 'Model name'. There are also checkboxes for 'Status' (Editing, Requested, CLPA accepted, Testing, Certified, Completed, Cancel) and a date range for 'Test request accepted date from partner'. Below the filters, there are sorting options and a 'New' button. The main part of the screen is a table with the following data:

Network / Function	Registration number	Product name	Model name	Status	Test request accepted date from partner	Update date
CC-Link		AAA	AAA	Editing		2023/02/09
CC-Link		BBB	BBB	Editing		2023/02/09

Once deletion is complete, data being edited is discarded and it disappears from the list.

Download the [Certificate] and [Test report] from the [Test request information] screen.

The image shows a screenshot of a web interface with a 'Downloads' section. The section contains two rows of download links. The first row has 'Certificate(Japanese)' and 'Certificate(English)'. The second row has 'Test report(Japanese)' and 'Test report(English)'. Red boxes highlight these two rows, and red arrows point from callout boxes to the respective buttons. The callout boxes contain instructions on how to click the buttons to download the applicable file.

Downloads	
Downloads	Certificate(Japanese) Certificate(English)
	Test report(Japanese) Test report(English)

Click [Certificate(Japanese)] or [Certificate(English)] to download the applicable file.

Click [Test report(Japanese)] or [Test report(English)] to download the applicable file.

19. Searching for Product Information

Product information can be searched.

The screenshot displays the 'My Page' interface for a user. At the top, there is a blue header with the text 'CC-Link Partner Association Members Site'. Below the header, there are navigation links for 'Contact' and 'Logout'. The main content area is titled 'My Page [Board, Executive, and Regular Members] Primary contact'. A note indicates that functions with a star icon are for primary contact persons and functions with a person icon are for engineer contact persons. The interface is divided into three main sections: 'Download for related materials menu' with a 'Downloads' button; 'Partner information menu' with buttons for 'Query member registration information', 'Change member registration information', 'Manage My Page users', and 'Change password'; and 'Product information menu' with buttons for 'Product information management' (highlighted with a red box and callout), 'Manage company URL/other information', and a partially visible button with a star and person icon.

A list of registered products will appear.
 The information for products that have passed the test is registered as product information with a [Published status] of [Editing] based on the test request information.

Specify the search conditions.

The screenshot shows the CLPA Product DBMS registration interface. The main header is blue with the CLPA logo and the text "CLPA Product DBMS". Below the header, there is a "Product details" section with a "Return to product list" link and a "Temporarily saved" button. A "Publish page preview" section includes a language dropdown (set to English) and "Detailed preview" and "List preview" buttons. A "Company name" field contains "ABC".

The "Product Info" section contains several fields:

- Test registration number: empty text field.
- Test category: dropdown menu showing "Conformance Test".
- Network / Function: dropdown menu showing "CC-Link".
- Category: three dropdown menus. "Category 1" is "CC-Link", "Category 2" is "Master", and "Category 3" is "PLC".
- Product name: dropdown menu showing "English" and an empty text field.
- Outline: dropdown menu showing "English" and an empty text field.
- Feature: dropdown menu showing "English" and a large empty text area.

Annotations with red boxes and arrows provide instructions:

- "Select the target input language." points to the "Select input language display" section, which has radio buttons for Japanese, English (checked), Chinese, Korean, and Taiwanese.
- "Click [Temporarily saved] to save the entered information temporarily." points to the "Temporarily saved" button.
- "If [Cables · connectors] is selected from the [Category 3] pulldown, item name headers will appear in the [Feature] field to assist entry." points to the "Category 3" dropdown menu.
- "Click [Delete entry field] to delete an entry field." points to the "Delete entry field" button in the Feature section.
- "Click [Add entry field] to add an entry field." points to the "Add entry field" button in the Feature section.

Other UI elements include a "PageTop" link at the bottom right and a "Return to product list" link at the top right.

21. Editing Product Information

Select the product information to be edited from the product list screen.

The screenshot shows the CLPA Product DBMS interface. At the top, there is a header with the CLPA logo and the text "CLPA Product DBMS". Below the header, there is a "Product list" section with a language dropdown set to "English" and an "Operation manual" link. There are "Logout" and "Close" buttons. A search filter section includes fields for "Partner company name" (ABC), "Category 1", "Category 2", "Category 3", "Language for product name search" (English), "Product name" (with a "Search by keyword" label), and "Published status". There are "Clear" and "Search" buttons. A "Sorting conditions" dropdown is set to "- Please select -" with a "Sorting" button. Below the search filter, there are buttons for "Batch internal approval request for publish" and "Batch internal approval request for unpublish", and a "New" button. The main part of the interface is a table with 9 columns: "Select", "Category 1", "Category 2", "Category 3", "Product name", "Internal applicant name", "Internal application status", "Published status", and "Update date". The "Product name" column is highlighted with a red box. A callout box with a red border and arrow points to the "Product name" column with the text "Click the [Product name] link for the target product." The table contains 8 rows of product data.

23. Publishing Product Information

Product information publish requests can be used by the Primary Contact, Engineer Contact, and My Page users.
However, only the Primary Contact can use this function when using internal approval.

Select the product information to be published from the product list screen.

The screenshot shows the 'CLPA Product DBMS' interface. At the top, there is a blue header with the title 'CLPA Product DBMS' and the CLPA logo. Below the header, there is a navigation bar with 'Product list', 'English', and 'Operation manual'. The main content area contains a search form with fields for 'Partner company name' (ABC), 'Category 1', 'Category 2', 'Category 3', 'Language for product name search' (English), 'Product name' (with a 'Search by keyword' label), and 'Published status'. There are 'Clear' and 'Search' buttons. Below the search form is a 'Sorting conditions' dropdown and a 'Sorting' button. To the right, there are buttons for 'Batch approval request for publish', 'Batch approval request for unpublish', and 'New'. At the bottom, there is a table with columns: 'Select', 'Category 1', 'Category 2', 'Category 3', 'Product name', 'Published status', and 'Update date'. The table contains two rows: one with 'AAA' and 'Editing' status, and one with 'BBB' and 'Published on website' status. A red box highlights the 'Product name' column, and a callout box with an arrow points to it, containing the text: 'Click the [Product name] link for the target product to be published.'

Select	Category 1	Category 2	Category 3	Product name	Published status	Update date
<input type="checkbox"/>	CC-Link	Master	PLC	AAA	Editing	2023/01/27
<input type="checkbox"/>	CC-Link	Master	PLC	BBB	Published on website	2023/01/27

After request registration, the publish status will become [Requesting].

The confirmation screen is displayed.

A screen will appear to send an email confirming the publish approval request.

The [Published status] for all targets with a check will become [Requesting for unpublishing].

After that, product information will be unpublished with the approval from CLPA.

28. Batch Publishing/Unpublishing Product Information Using Internal Approval (for Engineer Contacts, My Page Users)

The Engineer Contact or My Page user can make a batch publish or unpublish request for multiple product information, and the Primary Contact can confirm the product information and complete the internal approval in a batch.

When requesting internal approval for batch publish, select the product information to be published from the product list screen.

The screenshot shows the CLPA Product DBMS interface. At the top, there is a header with the CLPA logo and the text "CLPA Product DBMS". Below the header, there is a "Product list" section with a search form and a table of products. The search form includes fields for "Partner company name" (ABC), "Category 1", "Category 2", "Category 3", "Language for product name search" (English), "Product name", and "Published status". There are also "Logout" and "Close" buttons. The table below has columns for "Select", "Category 1", "Category 2", "Category 3", "Product name", "Internal applicant name", "Internal application status", "Published status", and "Update date". Two rows are visible, both with "Editing" status. Annotations with red boxes and arrows point to the "Select" column, the "Batch internal approval request for publish" button, and the "Batch internal approval request for unpublish" button.

Place a check in the [Batch internal approval request for publish] targets. Place a check in [Select] when all the search results are targets.

Click [Batch internal approval request for publish].

Select	Category 1	Category 2	Category 3	Product name	Internal applicant name	Internal application status	Published status	Update date
<input checked="" type="checkbox"/>	CC-Link	Master	PLC	AAA		Editing	Editing	2023/01/27
<input checked="" type="checkbox"/>	CC-Link	Master	PLC	BBB		Editing	Editing	2023/01/27

A confirmation pop-up will appear. Click [OK] to send a request.

www-t.cc-linkorg.web.melco.co.jp says

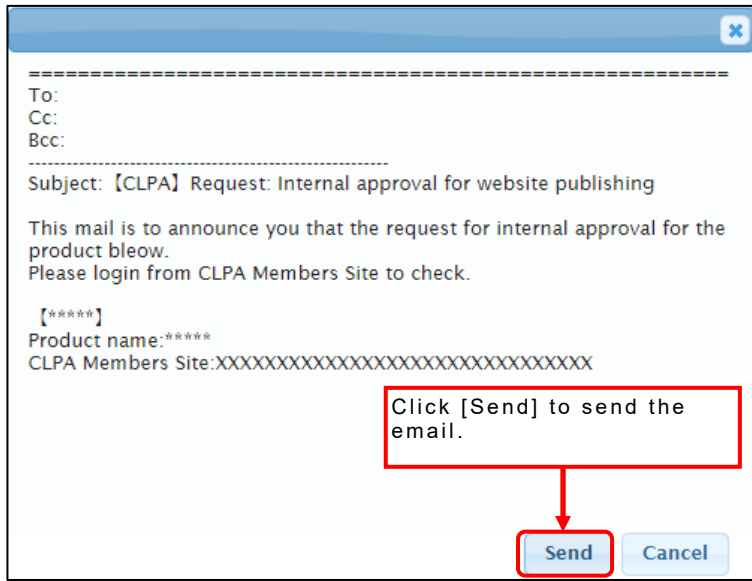

Do you want to send a request for product publish internal approval?

If the target for which a batch internal approval request for publish is not possible is included (for example, if the published status is [Published on website]) , an error message will be displayed and the request will be aborted.

www-t.cc-linkorg.web.melco.co.jp says

Select	Category 1	Category 2	Category 3	Product name	Internal applican name	Internal application status	Published status	Update date
<input type="checkbox"/>	CC-Link	Master	PLC	AAA	Engineer Contact Name	Requesting for approval	Editing	2023/01/27
<input type="checkbox"/>	CC-Link	Master	PLC	BBB	Engineer Contact Name	Requesting for approval	Editing	2023/01/27

The [Internal application status] for all targets with a check will become [Requesting for approval].

The publish approval request will be transferred to CLPA after the internal approval by the Primary Contact.

When requesting internal approval for batch unpublish, select the product information to be unpublished from the product list screen.

The screenshot shows the CLPA Product DBMS interface. At the top, there is a header with the CLPA logo and the text "CLPA Product DBMS". Below the header, there is a "Product list" section with a language dropdown set to "English" and a link to "Operation manual". There are "Logout" and "Close" buttons. A search filter section includes fields for "Partner company name" (ABC), "Category 1", "Category 2", "Category 3", "Language for product name search" (English), "Product name" (with a "Search by keyword" label), and "Published status".

Below the search filters is a table with columns: "Select", "Category 1", "Category 2", "Category 3", "Product name", "Internal applicant name", "Internal application status", "Published status", and "Update date". Two rows are visible, both with "Published on website" status and "2023/01/27" update date. The first row has product name "AAA" and the second "BBB".

Annotations in red boxes and arrows point to specific elements:

- A box around the "Select" column header and the first two rows contains the text: "Place a check in the [Batch internal approval request for unpublish] targets. Place a check in [Select] when all the search results are targets." An arrow points to the "Select" column header.
- A box around the "Batch internal approval request for unpublish" button contains the text: "Click [Batch internal approval request for unpublish]." An arrow points to the button.
- A box around the "Batch internal approval request for publish" button is also present.

A confirmation pop-up will appear. Click [OK] to send a request.

The dialog box has a title bar that says "www-t.cc-linkorg.web.melco.co.jp says". The main text reads: "Do you want to send internal approval request for unpublishing product information?". At the bottom, there are two buttons: "OK" (blue) and "Cancel" (grey).

If the target for which a batch unpublish approval request is not possible is included (for example, if the published status is not [Published on website]), an error message will be displayed and the request will be aborted.

The dialog box has a title bar that says "www-t.cc-linkorg.web.melco.co.jp says". The main text reads: "Status that cannot be batch processed. Product name:AAA, BBB". At the bottom, there is a single "OK" button (blue).

29. Batch Publishing/Unpublishing Product Information Using Internal Approval (for Primary Contacts)

Using batch internal approval enables the Primary Contact to approve or reject approval requests in a batch.

It also enables a series of operations including batch internal approval and batch publish/unpublish requests.

When approving internal approval requests for batch publish, select the product information to be approved from the product list screen.

The screenshot shows the CLPA Product DBMS interface. The header includes the CLPA logo and the text "CLPA Product DBMS". Below the header, there is a "Product list" section with a language dropdown set to "English" and a link to "Operation manual". There are "Logout" and "Close" buttons. The main content area contains a search form with fields for "Partner company name" (ABC), "Category 1" (- All -), and "Category 2" (- All -). Below the search form, there are "Published status" (- All -) and "Sorting conditions" (- Please select -) dropdowns. A "Search" button is present. Below the search form, there are four buttons: "Publish: Batch internal approval", "Batch approval request for publish", "Unpublish: Batch internal approval", and "Batch approval request for unpublish". A "New" button is also visible. Below the buttons, there is a table with 10 columns: "Select", "Category 1", "Category 2", "Category 3", "Product name", "Internal applicant name", "Internal application status", "Published status", "Update date", and "Internal approval". The table shows two rows of data. The first row has "CC-Link" in Category 1, "Master" in Category 2, "PLC" in Category 3, "AAA" as the product name, "Engineer Contact Name" as the internal applicant name, "Requesting for approval" as the internal application status, "Editing" as the published status, "2023/01/27" as the update date, and "Publish request" as the internal approval. The second row has "CC-Link" in Category 1, "Master" in Category 2, "PLC" in Category 3, "BBB" as the product name, "Engineer Contact Name" as the internal applicant name, "Requesting for approval" as the internal application status, "Editing" as the published status, "2023/01/27" as the update date, and "Publish request" as the internal approval. Red boxes and arrows highlight the "Select" column, the "Publish: Batch internal approval" button, and the "Internal approval" column.

Place a check in the [Publish: Batch internal approval] targets.
Place a check in [Select] when all the search results are targets.

Click [Publish: Batch internal approval].

Select	Category 1	Category 2	Category 3	Product name	Internal applicant name	Internal application status	Published status	Update date	Internal approval
<input checked="" type="checkbox"/>	CC-Link	Master	PLC	AAA	Engineer Contact Name	Requesting for approval	Editing	2023/01/27	Publish request
<input checked="" type="checkbox"/>	CC-Link	Master	PLC	BBB	Engineer Contact Name	Requesting for approval	Editing	2023/01/27	Publish request

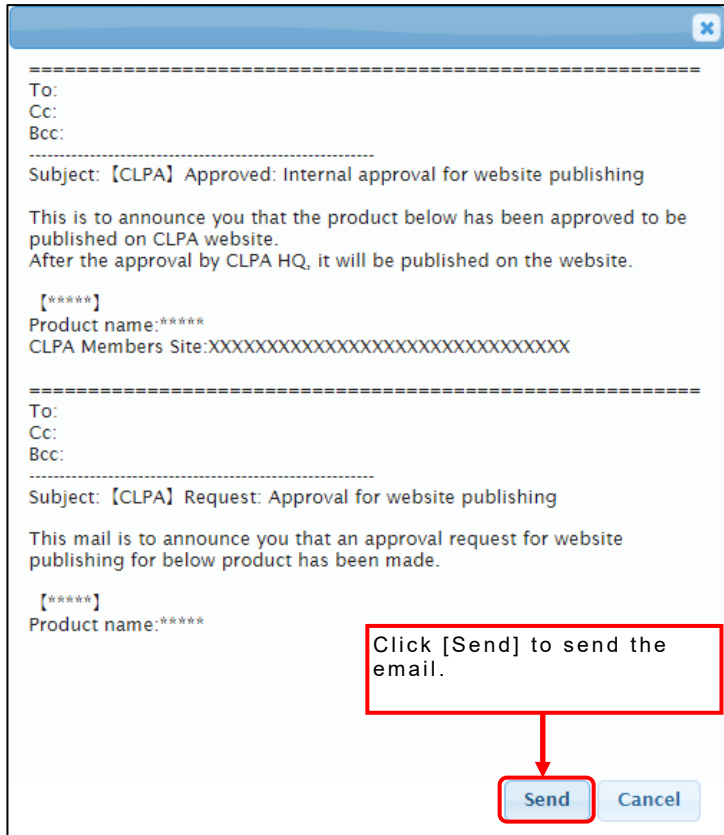

A confirmation pop-up will appear.
Click [OK] to approve a request.

The dialog box shows the text: "www-t.cc-linkorg.web.melco.co.jp says" followed by "Do you want to approve product publish internal approval request? In addition, approval request for publish will also be made." There are "OK" and "Cancel" buttons.

If the target for which a batch publish internal approval is not possible is included (for example, if the published status is [Published on website]), an error message will be displayed and the request will be aborted.

The dialog box shows the text: "www-t.cc-linkorg.web.melco.co.jp says" followed by "Status that cannot be batch processed. Product name:AAA, BBB". There is an "OK" button.

After clicking [OK] on the request approval pop-up,
A screen will appear to send an email confirming the internal approval for publishing.

Once all targets with a check in the internal approval for publishing are completed, an email sent pop-up will appear.
